This tour involves an approx. 45 minute guided tour or about 1/3 mile. They REQUIRE your wear CLOSED-TOE STURDY SHOES. Dress for the weather, we will be outside for most of the tour.

Hard hats and safety goggles required/provided. If anyone has mobility issues, other arrangements can be made. Each visitor has a liability form that will need to be signed, I will pass those out Friday and Saturday. No signed form, no tour. It will be amazing to get up close to the wind turbines, and a great photo op with our cars!
